

Honorable MP Frank Caputo

Canadian citizens want an end to the federal funding of Mainstream Media. Canada is a democracy not a dictatorship. Canada, being a free and just society, has no need for a state run media.

Trudeau has publicly bragged in videos that he feels the Mainstream Media is indebted to him for the six hundred million funds he has transferred to Mainstream Media outlets and thus they must now follow the narrative he sets out for them to use in their news broadcasting and article writing.

The Mainstream Media corporations are simply propagandizing the private interest of the Davos Group that have infiltrated our government in the form of the World Economic Forum and Young Global Leaders. It is a well known fact that the members in the Canadian government who are associated with these foreign groups are actively pushing the foreign agendas of Klaus Schwab.

The National Security and Intelligence Committee of Parliamentarians (NSICOP) briefing regarding the National Security and Intelligence Committee of Parliamentarians Annual Report 2019 was heavily redacted by Justin Trudeau because Justin Trudeau and Chrystia Freeland were both implicated. NSICOP found that Justin Trudeau and Chrystia Freeland are under the influence and control of foreign states through bailouts, bankrolling, providing troops and funding to the Ukraine (\$45 million to Ukraine in 2019).

The manipulation of the Mainstream Media to meet the goals of this foreign group is criminal and quite possibly qualifies as extortion. The covid vaccine narrative was pushed with all counter arguments by doctors and scientists censored in the press. While there is also evidence that Trudeau has a financial interest in the lipid nano particles used in the mRNA vaccines, the vaccine passport is also the digital financial passport Klaus Schwab speaks of in his book "Covid-19 The Great Reset."

The Federal Communications Commission states it is illegal for broadcasters to intentionally distort the news. The FCC also states that "rigging or slanting the news is a most heinous act against the public interest."

The Mainstream Media demonization of Putin and Russia obviously is a Davos Group incentive. Canadians do not support war in any regard and oppose war completely. Yet the bias Mainstream Media attempts to manipulate Canadians to support the Ukraine – to benefit the Davos Group.

The Mainstream Media is not investigative journalism – it is opinionated journalism. No reporters are sent in to event scenes to obtain actual facts. Yet Mainstream Media is presented to the gullible Canadian public as real. We would like to see a Bill created for Mainstream Media forcing them to air a disclaimer that their news is opinion only and not based on actual fact.

In conclusion, Canadians do not authorize, support, agree with nor condone state run media. There is not consent nor a consensus from the Canadian citizens in the financial support of these Mainstream Media outlets – yet foreign agenda is being pushed in the state run Mainstream Media by those members of parliament who are connected to the Davos Groups. Canadians want an end to all funding of Mainstream Media immediately.
